DESERT HAWK 2003

Encampment Commander
Major Mike Murray

Over the course of the last week, we have all learned a tremendous amount of information. We have developed friendships, and learned to work as a team. Take these new skills home and put them to use in your squadrons, and at every CAP activity you attend in the future. Planning is underway for Desert Hawk II in June 2004, and I would encourage you all to come back, as it will be an even better experience for all.

Congratulations, you've completed the first Desert Hawk encampment. The last seven days have probably been challenging for you, but through teamwork and dedication you were able to get through it. You've gained a lot of experience, and I expect you to share your newly acquired knowledge with your home squadron. To prepare for Desert Hawk II, review applicable regulations, especially the Drill and Ceremonies manual, CAPR 52-16, and CAPM 39-1. I wish you all success in your CAP careers, and that you're able to use this experience to benefit Utah and Idaho wing.

Cadet Commander
C/Lt. Col. Kathleen Hobbs
